

ESC Historical Files

The Historical Files contain administrative materials, internal documents, photographs, and correspondence for the period from 1947 to the present. The documentation for the period from 1947 to 1955 is fragmentary, but the materials after 1955 are quite extensive. The Historical Files are kept at the center.

National Personnel Records Center

Although the NPRC did not have the early ESC studies, it did have miscellaneous information about the center in the late 1950s. These records are part of the huge Record Group 338, Major Army Commands, and are located with the retired files of the Army Map Service under the heading, USA Corps of Engineers Map Service. The Map Service accessions that include records concerning ESC are 338-78-0384, 338-78-0465, 338-78-0491, and 338-78-0493. These accessions contain a variety of records including briefings, weekly items of interest, drafts of studies, and correspondence.
